DEFEND YOUR LEGACY™

JOB POSTING

Direct Link: [Manufacturing Engineer](#)

Title: Manufacturing Engineer

Status: Full-Time

Description Summary:

Springfield Armory is currently seeking an experienced Manufacturing Engineer. This position will be responsible for developing and improving manufacturing processes by studying product and manufacturing methods, driving continuous improvement, new product launch, process, machine, fixture, equipment, gauging, tooling selection, and lean & six sigma fundamentals.

- Defines and implements manufacturing processes.
- Implements common methods and systems.
- Performs simultaneous engineering activities with cross-functional group.
- Continuously improves safety, quality, cost, and responsiveness.
- Estimates new engineering change/project investment.
- Specifies equipment, gauging, and tooling and coordinates procurement.
- Provides engineering support for day-to-day operations.
- Supports and actively interacts with manufacturing operations group.
- Benchmarks manufacturing systems.
- Provides input for preventive maintenance to the Maintenance organization.
- Develops error-proofing plan.
- Develops and maintains the Bill of Process.
- Develops manufacturing process documentation including Material Flow Diagram, Process Flow Diagram, Process Sheet, Process Element Table, PFMEA, Process Control Plan and Gauge Chart.
- Develops standardized work.
- Performs Statistical Process Control (SPC), Process Capability studies & measurement systems analysis (Gauge R&R).
- Other duties as assigned: work may include but is not limited to the above listed responsibilities.

Requirements:

Bachelor's degree in Mechanical Engineering, Engineering Technology, Industrial Engineering or applied science expected. Must possess demonstrated proven work history and the ability to work cooperatively with others. Experience in Advanced Product Quality Planning (APQP) highly desirable. Extensive knowledge of firearms is preferred. Requires strong and effective analytical, communication and technical skills. Appropriate training and knowledge of applicable state and federal laws necessary. Must be cognizant of safety regulations pertaining to the handling and use of firearms. This position is trusted to handle and protect company-private information: discretion, integrity and ethics nonnegotiable.

Compensation:

Springfield offers a competitive salary and extensive benefits package which includes a generous, comprehensive, and affordable health plan in addition to dental, vision, life, disability, flex, 401(k), and other options.
